

TAFT AND ROOSEVELT SEEM HOPELESSLY ESTRANGED OVER POLITICAL SITUATION

Selection of Chairman of New York State Convention Was Cause of Most Serious Rupture in Party's History

ROOSEVELT MAY BE CANDIDATE IN 1912

Claim is Made That Roosevelt Allowed Himself to Be Lead to Slaughter When Griscom Presented His Name for Temporary Chairman of Saratoga Convention--Taft Made Deal With Leaders.

New York, Aug. 18.—Staff correspondents of the New York papers, especially the World, Sun and Herald, today unite in their dispatches from Oyster Bay in declaring that an open rupture exists between President Taft and Colonel Roosevelt.

They charge that Roosevelt will not indorse the Taft administration and that the rupture is a result of a political deal made by New York state Republican leaders and President Taft's advisors. They state that the breach is so wide that no bricks can be thrown across.

The wise ones believe that President Roosevelt may find himself in such a position that he may be called upon to declare himself a candidate for the presidential nomination in 1912.

Roosevelt's friends state that Roosevelt, with his eyes open, allowed Griscom to lead him to the slaughter when he was turned down for Vice President Sherman, as the chairman of the Saratoga convention. The Herald says:

"Theodore Roosevelt will not indorse the Taft administration. The final break between the president and his predecessor came with the selection by the Republican state committee of Vice President James S. Sherman as temporary chairman of the Saratoga convention. These assurances come tonight from an absolutely authentic source. There will be no truce between Sagamore Hill and Beverly. Those close to Mr. Roosevelt make the startling charge that a political deal was entered into between Mr. Woodruff, William Ward, Republican national committeemen, and Vice President Sherman on the one hand and the close political advisors of President Taft on the other, whereby Mr. Woodruff was to be re-elected state chairman and Mr. Sherman temporary chairman of the convention. Mr. Woodruff has pledged to President Taft the New York delegation to the national convention of 1912 in return for the president's support. The erstwhile president will have no word of criticism for the man whom he chose as his successor in the White House. It will not be a surprise, however, to those who are in close touch with Mr. Roosevelt, if he finds himself placed in such a position that he will be forced to become an avowed candidate for the presidential nomination in 1912."

The Sun story says: "It can be positively stated that Mr. Roosevelt and Mr. Taft have broken. From trustworthy sources it comes that the turning down of Roosevelt is taken by Roosevelt men to be the result of a deal between the administration and members of the state committee whereby the old guard is to hand over its delegates to Taft in 1912 in return for the administration's backing in the forthcoming campaign. Conferences between the president and Messrs. Woodruff, Ward and Sherman followed the defeat of Roosevelt indorsement."

The World story says: "Between President Taft and Colonel Roosevelt who made President Taft, there is a complete break that appears so wide that no bricks can be thrown across it. With his eyes open, Col. Roosevelt is said by his friends to have let

Taft that if he would stand by them in the state fight this fall, they would stand by him when it came to a question of delegates to the national convention in 1912. This argument is said to have so appealed to the president that he expressed appreciation of Woodruff's work in New York."

NO REMARKS AT BEVERLY.

Beverly, Mass., April 18.—If there is any break in the friendly circuit between Oyster Bay and the summer capital, the fracture is visible only at the New York end. Rumors that the ex-president had decided to break with the administration were received here today with interest, but no statement or comment were forthcoming.

INSURGENTS SEE BRIGHT FUTURE

Minneapolis, Minn., Aug. 18.—Progressive Republicans of the Northwest and Central West see in Colonel Roosevelt's declaration for progressive principles and his reported break with President Taft the assumption by the colonel of the active leadership of the insurgent wing of the party. Representative Charles R. Davis, of the Third Minnesota district, a leading Minnesota insurgent, in an interview today, said:

"Defeat means final victory for Theodore Roosevelt. The state central committee of New York has fired an arrow into the armor of Colonel Roosevelt. Now you will doubtless see whole quivers of the same quickly shot back by him. He is being shot back by a man who knows how to fight."

"I am not surprised at the statement of Mr. Roosevelt. I have always been confident that he is in hearty sympathy with what the Republican progressives have done and are attempting to do. I am glad he has expressed himself thus early. His statement, coming at such a time will be worth much to the Republicans this fall."

"Very evidently Mr. Roosevelt had, up until this time, hoped to harmonize all elements in the party, both in New York and in the nation. While I regret to say it, I fear the moment has come when Mr. Roosevelt realizes the fight will have to be made for Republican principles and for policies which he himself inaugurated."

CAMPAIGN LEADERS NAMED NEXT WEEK

Toledo, Aug. 18.—The Republican executive committee for the coming fall campaign will be selected at a meeting of the state central committee at the Neil House, Columbus, on Thursday, Aug. 25. A call for the meeting was issued by Chairman Walter S. Brown today.

GOV. HARMON'S APPEAL TO COLUMBUS TO SHOW ITS COLORS AGAINST RIOT

The following editorial, under the caption "Show Your Colors," appeared in yesterday's New York World:

"Governor Harmon has taken charge of Columbus, O. The mayor, whether from nervousness or from some stupid delusion that he was playing politics, had permitted the disorder incident to a street car strike to swell unchecked into riot into shootings, stabbings, incendiarism, burnings with acid into paralysis of business; even into a mauling of many policemen. With or without the mayor's help order will now be restored."

"Governor Harmon's action recalls his recent service to Newark, O., where he disciplined the mayor and sheriff for their failure to put down an outbreak of mob law in which a detective was lynched. A governor who so respects his oath to take care that the laws are faithfully executed could not ignore in the capital city of his state the daily spectacle of law held in contempt."

"Governor Harmon has no other purpose than the execution of the law. The merits of the quarrel are not his affair. He represents order, restraint, civilization. He asks good citizens to show their colors."

"There is no alternative. No American labor union can profit by anarchy. No American capitalist can invoke it. Its seeds are self-sown in the soil of opportunity only where official neglect leaves violence unpunished."

"Riot must be suppressed. Order must be restored. Columbus must show its colors."

KING AND QUEEN OF ITALY GO TO SEE THE FATHER OF LATTER CROWNED IN MONTENEGRO

THE KING OF ITALY ENROUTE
KING VICTOR EMMANUEL
PRINCE NICHOLAS
QUEEN HELENE

Rome, Aug. 18.—King Victor Emmanuel and Queen Helene of Italy, have started for the little principality of Montenegro, which is soon to become the kingdom of Zeta, with the father of Queen Helene, Prince Nicholas I., as king. Advices from the Swiss frontier that anarchists have gathered to assassinate the royal party have caused great precautions to be taken, but the Swiss authorities declare that the gathering of anarchists has nothing to do with a plot to slay the king. When the king and queen of Italy arrive in Montenegro the actual change from dependency to kingdom will have taken place, but for several days following their arrival there will be elaborate festivities in court circles. It is said that King Nicholas plans to make his court as exclusive and stately as that at Vienna.

JAPAN MAY ANNEX COREA

Seoul, Aug. 18.—The "Japanizing" of Korea has progressed so rapidly since the treaty of Portsmouth that even the most radical of the advocates of Korean independence now admit that the formal annexation of the "hermit kingdom" by Japan which will probably be announced within a few days, will meet with but little opposition from the Korean patriots.

A year ago the execution of such a move as Japan plans would have met with stout resistance by the hand of Koreans that has been responsible for a number of assassinations of officials whose influence was considered inimical to Korea. Japan however has such a strong military hand on Korea now that it is seen that resistance would be suicide on the part of those offering it.

CANNON AND BRISTOW CHANGE COMPLIMENTS

Salina, Kan., Aug. 18.—Speaker Joseph Cannon's mild thrust at Kansas insurgency in his speech in Frelinghuysen's committee, yesterday afternoon brought forth an answer today equally as gentle by Senator Bristow, who returned to his home here after a speaking tour of Wisconsin. The Kansas senator declared that he considered the statements of the speaker in regard to Kansas as the "petulant remarks of a childish old man."

"Kansas Republicans," continued Senator Bristow, "insist that the party shall keep its promises. The people of Kansas do not approve the arbitrary and engineering methods of Mr. Cannon, who seems to think he is the Republican party. The only thing he seems to be in the public mind is the rule of the house of representatives and the people of the west, especially Kansas, are against that method of conducting business."

EMPEROR JOSEF, 80.

Ischl, Austria, Aug. 18.—Emperor Franz Josef is 80 years old today and the anniversary is being celebrated with great enthusiasm not only by the 74 archdukes and archduchesses who have gathered but by the people in general.

STATUE OF WASHINGTON.

Paris, Aug. 18.—A statue of George Washington, the gift of the state of Virginia to France, was unveiled in the Napoleon courtyard of the Versailles palace this afternoon, in the presence of a distinguished company of Frenchmen and Americans.

MAYOR GAYNOR GAINS RAPIDLY

Hoboken, Aug. 18.—Despite the fact that disquieting rumors about the condition of Mayor Gaynor continue to be circulated, the doctors in attendance reported today that he is progressing satisfactorily.

HARMON'S PLAN HAS LEAKED OUT

Will Prosecute Company For Law Violations Until It Arbitrates

TROOPS STILL ON DUTY

Only Three Cases of Stone Throwing Reported to Police Department Last Night.

Columbus, Aug. 18.—Governor Harmon's plans for settling the street car strike, which became known today, contemplate measures very similar to those adopted by Theodore Roosevelt in 1902 when he settled the great coal strike.

He proposes to put the legal screws on the street railway company and twist until the company is willing to arbitrate. Roosevelt found out that the big coal barons, who were prolonging the coal strike, had been violating about every interstate commerce and anti-trust law on the federal statute books.

"Which will you take," he asked them, "a settlement of the coal strike or prolonged prosecution?" They took a settlement of the strike and mighty quickly, too.

The governor, with trained legal men assisting him, is endeavoring to find out wherein the company has been violating its franchise, as well as the laws of Ohio. The franchise itself is being gone into carefully. The governor is looking for something that will force the company to its knees and make it cry out, "We'll take arbitration."

Columbus, Aug. 18.—With restoration of order in Columbus, the city and state government and the civic organizations are exerting themselves today to force a settlement of the street car strike by arbitration before the militia is sent home again. Governor Harmon is at work on plans to bring the contending parties together and the city council, though it failed in its attempt to act as arbitrator, is being urged to continue its efforts to force the railway people to arbitrate.

OHIO ELECTRIC STRIKE.

Columbus, Aug. 18.—Superintendent Moore of the Ohio Electric railway, announced Thursday that five additional striking employees on the Columbus-Springfield division had come back into the fold and that he had word from others that they would follow suit. "Instead of the strike extending to other lines," he said, "the men already out on the Columbus-Springfield line are coming back to work. We have 16 of them back already, where last Sunday we had only one. We won't attempt to operate on schedule at night until we have all of our cars properly manned."

Columbus, Aug. 18.—Governor Harmon again yesterday took up the hunt for grounds on which to effect a settlement of the car strike. He declined to make known the nature of his proposal save to say that it was along "even lines."

Last evening, representatives of both the union and the company said nothing had come to them to indicate what the plan of the governor might be.

President C. J. Pretzman of the chamber of commerce this morning reentered the field in search of a means of settlement. He will work on a new proposition, acceptance of which by both parties would end the strike, according to those in support of it.

President Pretzman intimated the plans under consideration have not been tried before and held rosy possibilities.

There was no violence to speak of last evening. Some stone throwing and firing by car crews were reported. No one was injured.

Mayor Marshall probably will not again put policemen on cars as guards. After a conference between the mayor, Adjutant General Weybrecht, General Speaks and Safety Director McChesney yesterday afternoon, it was announced that the police patrol plan used Tuesday night would be continued, with the police to be in citizens' clothes. The military officers said the militia would continue on duty in the camps, ready for emergency riot calls.

The company yesterday and last evening continued to equip the cars with armed private detectives. Large numbers of these were also held in reserve to be sent in autos to trouble scenes. Last night it was said, the

BALLOON TRIP OF 331 MILES

Philadelphia, Aug. 18.—Although failing in the attempt to reach Canada, Dr. Thomas E. Eldridge, pilot of the balloon Philadelphia II., who, with two companions, ascended from Point Breeze Tuesday night, returned here today with the local time record to the balloon's credit as the result of remaining in the air 12 hours and 35 minutes. During its flight the balloon attained an altitude of 11,000 feet. It landed on Negro Mountain, in western Maryland, after a flight of 331 miles.

WOMAN'S WORLD

Misses Elizabeth and Priscilla Whitney entertained a few friends at cards Thursday evening at their home on East Mulberry street, honoring their house party, the Misses Wright of Newark, Lancaster, Eagle.

The Rosbud Embroidery club will hold its picnic at Ricket Park Friday afternoon at two o'clock.

The Bergen Land reunion will be held August 27th at the home of Mrs. Margaret Albright, two miles east of Vanatta. Everybody is cordially invited.

Mrs. James Wilson was delightfully surprised at her home in Tossacaw street Wednesday evening with a birthday and farewell party. Mrs. Wilson will leave the first of next month to join her husband in the Isle of Pines, where they will make their future home.

Miss Ethel Woodward the popular society editor of the American Tribune, is taking a much needed rest at Buckeye Lake this week, and Thursday she was tendered a post card sprinkle by her Newark friends.

A reunion of the Kreager family was held at Aunt Sally Kreager's home, in Hopewell township, Wednesday, about 250 people being present. A splendid dinner was served by the one and all. The principal address was given by Rev. Frank Kieffer of Dayton and Rev. Mr. Kreager of Gratiot. The date marked the 100th anniversary of the arrival of the Kreager family in Ohio.

The annual reunion of the Neighbarger family of Licking and adjoining counties was held at Ricket Park Thursday with several hundred members of this family and their friends in attendance. The history of the Neighbarger family is interwoven with the history of Licking county. The original members of the family were among the pioneer settlers of the county and state and blazed their way through the forest which then covered the land. At the reunion on Thursday the day was spent in having a good time, which was seasoned with a dinner prepared by the women that an epicure might envy. All had a most enjoyable time.

Mr. and Mrs. G. W. Gardiner and Misses Bertha and Flossie Keck of Cooksville, Miss Edith Holden of New Lexington, Mr. and Mrs. E. H. Ross and son Wells, Mr. and Mrs. Fred Sylvus and Miss Gertrude Sylvus and Adolph Linser of Zanesville and Mr. and Mrs. Frank O. Brown of Newark have returned from a two weeks camping party at Hill Top, near Fulton's Falls.

A pleasant birthday party was that given Tuesday evening at the home of Mrs. Albert Kent north of the city for Miss Marie Barr of Manning street. The hours were spent informally and daintily refreshments served to the following guests: Mr. and Mrs. Jess Reed and Frank Reed of Niagara Falls, and the Misses Carrie Dixon, Anna Kent, Catherine Kent, Blanche Duvall, Bertha Priest and Cecelia Barr, and Messrs. Charles Barr, Wm. Barr, Harley Huffman, Earl Green.

Heart and Home Talks

by Barbara Boyd

There is a tendency on a vacation to let bars down, so to speak. One is out for fun. He throws off all restrictions, together with all cares. It is so delightful, and so novel, to feel absolutely free, that customary rules of conduct are thrown to the winds.

A girl thinks it something of a lark to "pick up" somebody. A married woman indulges in a mild flirtation, "just for fun." The married man lets his eyes, his thoughts, possibly his feet, wander after the pretty girl staying at the same hotel. The spirit of adventure is abroad in the land.

The many who do these things in the summer are perfectly respectable people, and in the main, would scorn such conduct. But to break out in this way once in a while is a joyous change from their ordinarily monotonous routine existence. And vacation time, the season of midsummer madness, is usually the period chosen to depart from their ordinary proper walk.

Whether such little excursions from the path of virtue are to be condemned or not, is for each excursionist to decide for himself. Probably it depends upon just how far he goes. But of one thing the person on a vacation should be careful, and that is, of admitting summer acquaintances into the intimate realm of friendship.

It is very easy in the sociable life of summer hotels and boarding houses to spend much of one's time with some one person who seems especially congenial. But the matter should be tested a little beyond this before one lets this stranger in to one's life as the true friend. He or she may seem most companionable now, but when one is back among one's usual friends and

Miss Helen Redman of North Fourth street was hostess this week to the members of the Tuesday Evening Euchre club and at the close of the game the prize was awarded to Miss Lillian Miller. The serving of a delicious repast followed. The guests of the club were Misses Lillian Miller, Verna Harding, Goldie Daly, Rose Schenberg and Miss Rosa Frankel of Rochester, N. Y.

HILLIER FULKERSON. The following is the account of the wedding of Mr. Charles Francis Hillier son of Mr. and Mrs. Charles Hillier of West Church street to Miss Patsy Fulkerston of Kentucky. The account is taken from the News-Record of Middletown, Ky.

"Fern Lake Cottage at Fern Lake Tuesday night was the scene of a very simple, but pretty wedding when Mr. Charles Francis Hillier was united in marriage to Miss Patsy Louise Fulkerston. Rev. L. S. Anderson of Rose county officiating.

The bride looked very sweet and dainty in white lingerie, while the groom wore the conventional black. At the conclusion of the ceremony the happy couple were showered with congratulations from friends and relatives. Chinese lanterns and ferns formed the principal decorations. Delicious refreshments of food and cakes were served during the evening. An immense bride's cake placed upon a table in the center of the large room from which each guest cut a slice of the cake in the hope of finding the much coveted bride's ring, afforded a great deal of amusement.

"The bride is the youngest daughter of Mrs. Ida Fulkerston and is one of Middletown's most popular society belles. The groom has been a resident of Middletown for the past two years, having located here from Newark, Ohio. During this time he has been employed as baggage-master with the L. and N. and Southern railways, but lately has accepted a position in the Internal Revenue Service. He is a cousin of Mrs. O. B. Hollingsworth of this city.

"Both bride and groom have a host of friends in Middletown who extend the happy couple their hearty congratulations. They will spend their honeymoon at Fern Lake cottage.

BALDWIN-TALBOT. Miss Margaret Talbot's marriage to Mr. Fred Baldwin was celebrated at noon Wednesday. The ceremony took place at the home of Mr. and Mrs. Jesse Smith in Bexley, Mrs. Smith being a sister of the bride, whose home is in Cleveland. The living room was the scene of the marriage, and Rev. R. D. Morgan of the Morgan Memorial M. E. church, performed the ceremony. Among the guests were Mr. and Mrs. Harry Miller, Mr. and Mrs. Ralph Gabley of Granville.

Mr. and Mrs. Baldwin will reside in Cleveland.—Ohio State Journal.

relatives, it may be found that this newcomer will not fit into the circle at all. Yet, having made all sorts of extravagant vows of friendship, it is difficult to break them. One is away from one's usual standards on the summer vacation. Summer interests are light interests, and to pass the time, one often finds amusement in the company of those who ordinarily would be in no way congenial. It is wiser, therefore, to go slow in making too intimate friends of them, or in offering them the freedom of one's home, so to speak, upon the return to the city. If there are grounds to believe the intimacy will be mutually pleasurable, it can be renewed with wise reserve after the return home is made. If there is a real basis of mutual interests, the intimacy will without fail ripen into friendship, all the more full of pleasure because it has been of this gradual growth. Much harm is caused by the sudden friendships of summer. A girl often finds herself entangled with most undesirable associates. Again, there being no real basis for friendship, the ardor cools, and both sides regret the confidences that have been exchanged, possibly the family matters that have been divulged, or, if one side wishes to drop the acquaintance and the other doesn't, hard feelings are engendered. One can have a good time with one's vacation acquaintances, but one needn't make of them friends, and hold out extravagant promises to keep up the intimacy. True friendship is a matter of gradual growth, and if the soil is there, rest assured, the friendship will grow as naturally and beautifully as does a flower.

MRS. COREY MAY RETURN TO THE STAGE IN GRAND OPERA

New York, Aug. 18.—According to a dispatch from London, Mrs. William E. Corey, who before her marriage to the Steel corporation president was Mabelle Gilman, will return to the stage in a more serious work than before her wedding. It is said that she will take the part of Katherine in "The Taming of the Shrew," and that she will appear only in London. The reason for Mrs. Corey's return to the stage is unknown, but it is presumed the glare of the footlights has proved too strong a temptation, and, even though she does not don the lighter garb of the ballet, she will find pleasure in displaying her ability in a heavier role. A definite date has not been set for the former actress' reappearance.

HEALTH AND BEAUTY NOTES

BY MRS. MAE MARTIN.

G. O. L. Many women, particularly at this season of the year, have the same trouble that now vexes you—that is, ordinary cold creams leave the skin so dry that the complexion loses instead of gains from their use. Make this cream jelly yourself at home and there will be an end to your troubles. From your drug store get one ounce of almond oil, put it in a fruit jar, add one-half pint of cold water and two teaspoonfuls of glycerine, stir briskly for a few minutes and let stand over night. This satisfactory cream is used for massaging to prevent and remove wrinkles, fill out hollow cheeks and round off angles. It gives a clear, fresh and soft skin, because it removes every particle of dust and dirt from the pores, it removes blackheads, and by making large pores small prevents their return. This cream contains no oils or fats that will cause a greasy skin. It prevents freckles, tan and sunburn.

Miss New York: You cannot be too careful in caring for your hair. You take a shampoo every week if it is necessary to keep your hair and scalp free from dust. Never use soda, as it fades the hair, makes it too dry, and is harmful as they leave the hair dry and brittle and cause streaks. For a quick drying home shampoo, there is nothing so good as to remove the hair, and dissolve a teaspoonful in a cup of hot water, pour on the head a little at a time and rub well, just as you would with any other shampoo. Then rinse well. Cantilox makes a rich and plentiful lather and thoroughly cleanses the scalp, removes dandruff, relieves itching and irritation, and leaves the hair soft, bright and fluffy—so that it is easily dressed.

F. P. F. Your eyes are weak and need a strengthening tonic. Get from your druggist an ounce of crystals and dissolve it in a pint of water. Drop one or two drops in each eye whenever they are tired, red or inflamed. This simple eye tonic helps wonderfully in keeping the eyes bright and clear and does away with that lack-luster and expressionless look that so detracts from an otherwise attractive girl's appearance.

L. L. To remove the superfluous hairs from your face and neck, mix a little salicylic acid with enough water to form a paste, cover the skin on which the annoying hairs appear with a strip of adhesive tape, and after it is removed, the hairs will fall out. Then wipe off the paste and wash the skin with warm water. Get the salicylic acid from the chemical works. It retails at one dollar and is sold in up-to-date drug stores. Should the hairs reappear, they will be lighter and thinner, and a second application of salicylic acid will permanently rid you of them.

OBITUARY

MARY JAMES HOFFMAN.

Many Newark people will be shocked to hear of the death of Mrs. Mary James Hoffman of New York, following the birth of a son, Wednesday. Mrs. Hoffman, who formerly lived in Loshoshon and during her residence there was a frequent visitor to Newark, was the daughter of Capt. E. W. James. Her husband, Arthur Stillwell Hoffman is an eastern magazine editor and writer connected with the Delmar.

Mrs. Hoffman was a great help to her husband in his work. She was graduated from Bryn Mawr, and later took a graduate course at that institution. For a year she was warden at Pembroke Hall. She traveled extensively in Europe and took a course in languages in the Sorbonne in Paris. While her husband was connected with the magazine, Times, she translated many of the stories that were published in it.

Her mother, Mrs. Cornelia James, and sister, Miss Rosalie James, now living in New York, her husband and the infant son survive. Burial will be in Columbus.

INFANT'S DEATH.

Marguerite, the infant daughter of Mr. and Mrs. Charles Parsons, died at the home of the parents in Newark township, north of Newark, Thursday morning at 2-15 o'clock, after an illness of some time with inflammation of the stomach and bowels and spinal meningitis. The funeral services will be held at the home Friday afternoon at 2 o'clock, conducted by Rev. Bunyan Spence of Granville. Interment in Welsh Hills cemetery.

IT LOOKS AS IF THE FIGHT IS ON TO A FINISH

The threatened break between Taft and Roosevelt seems to have come to a reality. The New York Republican machine very bluntly turned Teddy down in the proposition to make him the temporary chairman of the State Convention to be held at Saratoga, and chose Vice President Sherman in his stead. Immediately thereafter Sherman rushed off to Beverly to see Taft, and there the two held a serious confab over the situation brought by the snub to Roosevelt. Of course the Insurgent Republicans, especially throughout the west, are up in arms over the affair and will welcome Roosevelt to their leadership with equal positiveness it is announced that Teddy and his champions will wage open war in resentment of the Republican machine and the Taft administration.

It certainly looks as if the war between the two well defined wings of the Republican party had come to the point where it will be a fight to a finish.

The "model" Mayor of Columbus started out as reformer by discharging the Chief of Police who had been the pride of the city for years. In his place Chief Carter was appointed, who, after months of service proved to be a complete failure as an officer. This compelled the Mayor to enforce the regulation requiring the Chief to don uniform and become an officer in fact. Carter has been a joke both to law abiding citizens of the state capital and the criminals who infect it.

IT DEPENDS ON YOU.

Governor Harmon took a stand before the legislature in favor of a 10-mill tax limit. The platform adopted at Dayton approved his position. The Republican platform also declares for

A Real Remedy FOR COLDS, GRIP, FEVERISHNESS AND ACHING.

Wicks' Capudine will do the work as nothing else will. It quickly banishes the aching and feverishness and restores normal conditions.

Capudine also cures Headaches of all kinds, including sick or nervous headaches, and headaches caused by heat, cold, grip or stomach disorders.

Capudine is liquid—easy and pleasant to take—acts immediately. 10c., 25c. and 50c. at drug stores.

Canon—It's getting durn'd disg'reeable for me to travel d'wn this road.

a 10-mill limit, but the Republican legislature forced through a bill for a 10-mill limit, that is so "elastic" that it can be stretched to any length. If the taxpayers of Ohio want a 10-mill tax limit to protect them against extortion on property appraised at full value they must elect Governor Harmon and give him a legislature with a Democratic majority in both branches. A legislature with a Democratic majority in one branch would be helpless. A Democratic house might pass a 10-mill tax limit, and a Republican senate would kill it or mangle it as the present Republican legislature did to the bill recommended by Governor Harmon. A Democratic senate might pass a 10-mill tax limit bill and a Republican house would kill it or mangle it.

The election of a Republican legislature, or a legislature with a Republican majority in either branch, would mean the violation of the insincere 10-mill tax limit plank of the state platform with as little conscience as a Republican congress violated the promise of revision downward made by Mr. Taft and his platform two years ago.

A Republican legislature, or a legislature with a Republican majority in either branch, would mean that the present unsatisfactory "elastic" 10-mill tax limit law would remain unchanged or would be revamped and made still more indefinite and uncertain.

The choice is before those voters who will be called upon to pay taxes after this year on real and personal property appraised for taxation at the true value in money. The warning and the caution are given now. The time for thinking is during the campaign. The time for deciding is at the ballot box in November.

If you vote to let the taxpayers of Ohio this fall on this tax proposition as you did the people of the nation on the 20th of June promises two years ago don't come around next year when you pay your taxes, and protest that you wouldn't vote the same way if you had it to do over again.

VERMONT AND NEW HAMPSHIRE

(New York World.)
Senator Chase of Massachusetts, the political champion of the Taft Administration, is inspecting Vermont and New Hampshire from his motor car.

For a Republican such a trip should be a joy ride. Vermont gave Mr. Taft more than three-fourths of its votes in 1908. New Hampshire gave Bryan 20,000. What has happened?

Two Vermonters burdened with high taxes of living is the malodorous tariff a benefit? Have the Womans' Christian Institute in New Hampshire and the letter of Joshua Bass and the rest of it?

What is the matter? Why is the overworked Crane automobile roller coasting up and down the rocky hills where in the past Democracy has winter-killed? Are all the States becoming Ohio's?

Defoe and Savings Bank.
Though Duncan of Duthwell was the founder of our first savings bank, the first suggestion came from Daniel Defoe. TEDDY BACK IN THICK OF FIGHT

Oyster Bay, N. Y., Aug. 18.—Colonel Roosevelt got back into the thick of the political game today. Leaders who in the past have been his active lieutenants came here to confer with him and his home on Sagamore Hill presented the animated appearance it did when this plucky village on Long Island Sound was the summer capital. With only four days more of this Sunday, intervening before he starts on his first speed making tour, Roosevelt denied himself to all who did not have appointments, and all information regarding what was going on inside the house was withheld.

GOLF TOURNAMENT.
Boston, Aug. 18.—The August golf tournament of 36 holes at the Essex County Club, which opened at Manchester-by-the-Sea links today, was left by Robert A. Taft, son of the president, paired with Paul Moore, with a field of 72 starters, the first 16 to qualify.

THIS AND THAT

Wednesday was a great day in aviation. In France the aeroplane experts made new records, one flying across the channel to England. In California the machine Republicans were up in the air over the results of the primaries and it is said that Taft and Sherman soared among the clouds over the rumpus stirred up when Col. Roosevelt was turned down by the New York state Republicans. Incidentally, Columbus is in the "atmosphere" over the continued rioting in the capital city.

The Delaware county pumpkin show is scheduled for Oct. 12-13.

The Ohio State Journal rather naively suggests that Sept. 15th be made a national holiday; that is, of course, providing Secretary Ballinger really resigns on that day.

James A. Patton sold his seat on the New York Stock Exchange for \$70,000. Too much money. The buyer could have bought a seat most any place for less if he'd taken the trouble to look.

"Life" says the prevailing question in New England is "What do you know?" In New York "How much y' got?" In the South, "Who are you?" In the West, "What can you do?"

Mistah Jack Johnson's press agent is still busy "buying residences" in fashionable sections of many cities. The stories serve to keep the pugilist's name before the public, anyway.

Owing to the prolonged drouth, the water in Buckeye Lake is at a low stage. Many stumps are now seen below the surface of the water, making motor boat riding somewhat hazardous, especially at night. The "pastime" has been taken out of the larger lake, but the other boats are still running. Several hours of heavy rainfall would be welcome to Buckeye Lake residents, as well as to the farmers of Licking county.

Colonel Roosevelt says the action of the New York state Republicans in turning his photograph to the wall gives him "genuine pleasure," as it "relieves him of all responsibility in connection with the conduct and result of the campaign." This interesting information is carried from Oyster Bay by an Associated Press wire.

CURE FOR ECZEMA

Discovery That Cures Pimples, Eczema and All Skin Troubles.
If you are covered with pimples, blackheads, acne, barber's itch, blotches, freckles or other skin disease or blemish, now is the time to cure it with Hokara.

This pure and simple skin food is being introduced in Newark by W. A. Erman & Son at the low price of 25c for a liberal sized jar, and in the past few weeks they have sold hundreds of treatments.

It contains no grease or acid, is cleanly to use and is a true food and nourishment for the skin, cleansing and clearing it in every pore, making it soft, white and beautiful.

If Hokara does not do even more than is claimed for it and give perfect satisfaction, return the empty jar to W. A. Erman & Son and they will refund your money. If you have any skin trouble, you cannot spend 25c to better advantage than for a jar of this skin food. Large size 50c.

WEDDED THE DEAD.

Queer Marriage Ceremony That Was Performed in Japan.

The tragic ending of a Japanese love story is reported by the Japan Chronicle from Tsuzuki, a little seashore village in the province of Shizuoka.

Oko Matsusaka, twenty years old, fell in love with Ooo O-bun, a girl seventeen years old. The young couple sought the consent of their parents, and the father and mother of the girl refused to sanction the union. The two lovers decided to commit suicide rather than be separated. By appointment they met at a trysting place that had been the scene of their fore-making and embarked in a fishing boat. At a point some distance from shore they bound themselves together with some cloth brought along to serve that purpose and threw themselves into the sea.

Committing "shinju," as lovers' suicides are called in Japan, is such an ordinary occurrence that little attention is attracted by it, but this tragedy was followed by something exceptional in Japan.

When the two bodies, still bound together, were washed ashore the officials who examined them turned them over to their respective parents. The villagers were so deeply affected that they called upon the two bereaved families to "do justice" to the boy and girl by uniting them in marriage after death. The mayor of the village was especially insistent that the rites be performed, "so that the deceased might be safely united in the next world." The parents agreed, the ceremony was carried out in due form, and presents were exchanged between the two families. The ceremony was legally registered just as if it had taken place before the deaths of the bride and bridegroom.

Lafadio Hearn in his "Glimpses of Unfamiliar Japan" and "Gleanings in Buddha-fields" never brought the attention of the occident to any Japanese custom or occurrence stranger than this real happening that finds its way into the columns of a Japanese newspaper as a feature of the day's news.—Louisville Courier-Journal.

MADDENING MONOTONY.

The Graveyard Sort of Life That Obtains in Sierra Leone.

It is difficult to explain how complete in normal times is the dullness of the small villages in the protectorate of Sierra Leone, on the coast of western Africa, says a writer in the Nineteenth Century and After. An hour before sunrise shadowy figures move noiselessly through the narrow alleys which separate the mud walled houses and in single file pass out of sight toward the farm lands. A little later children and a few women leave the houses to obtain water for cooking. They also go in single file and in a short while will return in the same manner carrying water in calabashes, except, perchance, one or two may be affluent enough to possess a tin in which kerosene oil has been imported. During the great heat of the day people return and sit, silent and motionless, in the thatched roof verandas. Toward evening there is more movement. Food time generally brightens people even when it only means rice and peppers. Soon after sunset all sign of life ceases. There is no light in the houses, because oil is expensive, and a dying fire is enough when there is nothing to see except those you have seen all day; there are no sounds, save a baby's cry at intervals, or perhaps the weird call of some night bird, because people cannot talk much when no one has anything fresh to say. Next day will be the same, and so will be every day in the year except at festival times, such as when the girls or boys return, dancing and gayly decked, from the Porro Bush. There is no church, no postman, no passing horse or carriage and no newspapers.

Warming Gold Dishes.
Castle Kilkenny is one of the oldest inhabited dwellings in the world, some of the rooms being 800 years old. Among its ancient treasures is a service of gold plate. Besides the ordinary plate service, Castle Kilkenny has the whole series of gold cups used at coronation banquets down to the time of George IV. The gold of the service plates is almost without alloy, consequently very soft and easily marked; hence the plates are warmed and presumably also washed after use by being dipped into hot water, held by a pair of tongs whose tips have been muffled in chamois leather.—London Mail.

A Freak of Nature.
Colonel Denison had become the happy father of twins, and his unbounded pride in this twofold blessedness found expression on every occasion.

He stood with a friend on the bank steps one day as a young woman passed wheeling a baby carriage containing a pretty girl baby.

"Doesn't a woman look queer," said the colonel loftily, "with only one child?"—Success Magazine.

Got the Whole Story.
"What made you so late?"
"I met Jim."

"Well, that's no reason why you should be an hour late getting home to supper."

"I know, but I asked him how he was feeling and the fool insisted on telling me."—Houston Post.

HER HAND AND ARM BURNED AND ITCHED

Could Hardly Sleep at Night for About 11 Months. Used Cuticura Soap and Ointment and was Completely Cured.

"My mother had a red spot on her right hand which began to grow worse rapidly. The neighbors said it was a tetter. She got some medicine from a doctor, but it did not do any good. In about a week the tetter began to break out on her arm too. She used five or six different kinds of ointments and three different kinds of salves. Not one of these did her a particle of good. Her hand and arm would burn and itch so much that she could hardly sleep at night. Her hand was that way for about eleven months. Finally a friend of ours recommended Cuticura Soap and Ointment to us. She bought some immediately and began to use it. She washed her hand and arm with Cuticura Soap and warm water. Then she applied the Cuticura Ointment and bandaged her hand up. The next morning we all noticed a great improvement. Before she had used a half of a box of Ointment and a very little Soap her hand was completely cured. Now her hand is as well as ever. I think Cuticura Soap and Ointment is the greatest skin remedy ever discovered." C. E. Canady, San Leandro, Cal., Mar. 7, 1910.

Cuticura Remedies afford the most economical treatment for affections of the skin and scalp of infants, children and adults. A cake of Cuticura Soap (25c) and a box of Cuticura Ointment (50c) are often sent free, sold throughout the world. Potter Drug & Chem. COURT HOUSE NEWS

Petition for Divorce.

William F. Clary has filed a petition in the Probate court asking for a decree of divorce from his wife Pauline Clary. The parties were married June 26, 1895, and no children were borne of the marriage. Plaintiff says that immediately after the ceremony the defendant abandoned him and from that time has been wilfully absent from him. Smythe & Smythe, attorneys.

Elizabeth A. Williams has brought suit in the Probate court for divorce from John Williams, on the grounds of failure to provide for the past three years. The parties were married on the 19th of June, 1873. L. G. Smythe, attorney.

In the Probate court Manual, M. Gattman has commenced proceedings for divorce from George Gattman. The parties were married on the 14th of February, 1878, and for cause of action plaintiff charges her husband with gross neglect of duty and extreme cruelty. She says her husband locked her out of the house and afterwards told her to take her "traps" and get out of the house. She says she left and from that time they have never lived together. She also charges her husband with failure to provide for their minor son, Charles, and for other relief. Ralph Norpell, attorney for plaintiff.

HITCHCOCK WILL
REPORT ON POLITICS

Washington, Aug. 18.—To make a political survey of the far west, as well as some of the middle western states, Postmaster General Frank Hitchcock will leave Washington in a few days. His exact itinerary has not been made out, and it is likely that he will be governed in his travels by conditions of political interest when he reaches the Pacific coast. For many years Mr. Hitchcock has made it a rule to spend part

of his summer vacation in the west. He will combine pleasure and politics this year and when he returns to Washington in September will be able to tell the president at first hand regarding conditions in the western states. The postmaster general is advised that in many of the states where the Republicans were torn apart a few months ago, there is not a better feeling and that the Republican party is again demonstrating its ability to "get itself together" for the biennial November struggle.

NEW CORN CURE
A REAL MARVEL

Guaranteed and Absolutely Painless.

A corn cure that is painless and that will really do the work has finally been discovered. Heretofore, the poor sufferer from corns has been pestered with "drawing" salves and plasters that swell the corns, and has had finally to gouge out his corn and inflict upon himself still greater pain. With Hall's Painless Corn Cure all pain ceases on the first application, and then finally the corn comes right off easily and painlessly. You don't have to dig it out and run the risk of drawing blood, making your corns still more sore or getting blood poison.

Hall's Painless Corn Cure is easier to use than any other; it takes a few seconds to apply it. It is guaranteed absolutely in every case. You must be satisfied, or back goes your money.

HALL'S PAINLESS CORN CURE
Lasts longer than several packages of any other corn treatment, and you are sure to get rid of corns and bunions. Sold at 25 cents a bottle at

HALL'S DRUG STORE
Next Door to Interurban Station.

THE REAL ALASKA.

We paid \$7,200,000 for this vast territory. It has already paid for itself 370 times over. It now has a larger population than several of the states at the time they were admitted to the Union. While the climate in some parts is as cold as Greenland, in others it is as mild as Maryland its agricultural possibilities parallel those of Norway, Sweden, Finland and much of Russia.

It is 14 times the size of the state of New York.

It would make 470 Rhode Islands.

It has over 4000 school children today.

It has railroads, river steamship transportation lines, churches, court houses, libraries, schools, grain, dairy and poultry farms, besides great forests and a wealth of mines unmatched in the world, most of which are workable the entire 12 months of the year.

And this is the territory about which Mr. Ferriss of New York, in 1869, introduced the following bill in the congress of the United States:

"Resolved, That the president be authorized to bind the United States by treaty to pay the sum of \$7,200,000 to any responsible European, Asiatic or African power which will accept a cession of the territory of Alaska."

Settlement in western Canada was vigorously fought by the Hudson Bay Company for a century. The Hudson Bay Company profited by keeping the great Northwest Territory a wilderness. In much the same way great financial combinations that now cover the vast natural wealth of Alaska would like to picture Alaska to the people as a vast land of snow and ice and foreboding winter that they might acquire and operate their own gigantic special privileges in the territory unmolested by settlers who might claim their share in the land.—Collier's.

TRACTION LINE

W. A. Gibbs formerly general manager of the Columbus, Buckeye Lake and Newark and the Columbus, Newark and Zanesville, but now in charge of the properties of the Midland Power and Traction company, with headquarters in Cambridge, has announced that he will soon begin the construction of a new line from Byesville to Pleasant City. The line will be six miles long and will be all in thermally county. It will cost about \$100,000, and is to be completed before the end of the year.

IRON MARKET
HOLDS ITS OWN

Cleveland, Aug. 1.—The Iron Trade Review says:

The market as a whole has not lost any ground, and in many quarters there is a more cheerful tone regarding the outlook for the remainder of the year. Prices on finished materials are not any lower and fair speculating on the part of the consumers is noted. Buyers, however, are still confining purchases to small lots for immediate shipment.

With the close of the vacation season the trade is looking forward to greater activity and it is now generally conceded that developments of the next 30 days will determine what can be expected in the way of new business for this year. Makers of steel and fabricators state that while the railroads are still tight buyers they are making a greater number of small structural orders. The markets on plates and shapes are holding firm with 10c. Pittsburgh as the minimum.

Leading car manufacturing plants have enough orders on their books to insure steady operation at the present rate of production until the middle of November.

The market on large pipes shows considerable activity and there is a large amount of new business under active negotiation. Except for export trade, there is little demand for sheets.

The fellow who tells a girl they could live on bread and cheese and kisses expects her to furnish the bread and cheese.

THE LITTLE
BLACK DUCK.

There was once an enchanted lake that should have been very lovely, but wicked elves dwelt in it day and night, and they bewitched all the grasses that grew near its sides and caused them to throw such poisonous gases from their green and slimy blades that no birds would live on or near the lake.

Come, oh, swans, oh!" And, lo, in a few moments many snow white swans came duttering from the fleecy clouds, and, resting on the blue waters of the enchanted lake, they commanded the wicked elves to depart.

Soon all kinds of birds would drink of its waters, and mortals would spend long hours seated near it, for now the grasses were no longer bewitched.

Come, oh, swans, oh!" And, lo, in a few moments many snow white swans came duttering from the fleecy clouds, and, resting on the blue waters of the enchanted lake, they commanded the wicked elves to depart.

Soon all kinds of birds would drink of its waters, and mortals would spend long hours seated near it, for now the grasses were no longer bewitched.

When the wizard commanded the snowy swans to live on the lake he

also bade them make all other birds welcome. One day there came a poor, lonely little black duck.

How terrified she was! The swans were very haughty, and they spread their snowy wings and stretched their beautiful long necks as they sported on the lake and called the poor little black duck homely and awkward.

But she said unto herself: "Perhaps if I only give sweet answers to the beautiful swans when they scorn me I may be rewarded in some way. Then, too, before I came here my fairy god-mother always taught me to be gentle and polite to every one." So she dwelt lovely in sweet humility and sang songs to the water nymphs beseeching them to help and guide her.

One day when the swans were speaking very scornfully to her a beautiful water nymph named Silvertriss came floating up out of the depths of the enchanted lake, and she smiled as she listened to the scornful swans.

Then she said: "Little black duck, the beautiful swans call you homely and are very proud of their snowy plumage, but you are sweet and humble, and I shall reward you by giving you a royal family that will be more than beautiful. They will be so magnificent that no one will look at the scornful white swans when your children are near." Then the water nymph went down to her beautiful palace at the bottom of the enchanted lake, taking the little black duck with her.

Then she gave her a room in the palace to herself, and in the middle of this room was a golden basket full of wonderful eggs.

Silvertriss said: "Now, little black duck, you must be patient and nestle closely over these eggs for several weeks."

One day there was a great "cheeping," and now the black duck was mother of a family and was very happy. But one thing disappointed her very much. She had hoped that the water nymph would give her white children, but these were all black.

One day Silvertriss whispered: "The time has come for you and your children to rise to the surface of the enchanted lake. I will take you with me."

When the scornful swans saw the black duck and her black family they shouted in great derision, but Silvertriss called in commanding tones: "White swans, I shall now divide this lake into two parts. The small, ugly end you shall have for your own, but the large, beautiful part is for the little black duck and her royal family, for know ye that her children are black swans, who are of priceless value."

Thus the scornful white swans, who were so vain because they were beautiful, were punished by Silvertriss and were obliged to live at the small end of the enchanted lake.

The little black duck never saw Silvertriss again, but she heard her chanting beautiful songs down in her palace at the bottom of the lake.

The black swans always remembered the advice of the water nymph: "Do not become vain of your great beauty. Always honor and love your mother, the little black duck, who went down to the bottom of the enchanted lake and lived in faith, hope and love until the time came for her to float upward with her royal family."—Philadelphia Record.

Silence!

The instinct of modesty natural to every woman is often a great hindrance to the cure of womanly diseases. Women shrink from the personal questions of the local physician which seem indecorous. The thought of examination is abhorrent to them, and so they endure in silence a condition of disease which surely progresses from bad to worse.

It has been Dr. Pierce's privilege to cure a great many women who have found a refuge for modesty in his offer of FREE consultation by letter. All correspondence is held as sacredly confidential. Address Dr. R. V. Pierce, Buffalo, N. Y.

Dr. Pierce's Favorite Prescription restores and regulates the womanly functions, abolishes pain and builds up and puts the finishing touch of health on every weak woman who gives it a fair trial.

It Makes Weak Women Strong. Sick Women Well.

Daddy's Bedtime Story—The Bear That Would Not Sleep

"You Better Be Off to Bed, Youngster!"

ALL bears, kiddies, sleep in the winter time," said daddy in beginning his bedtime story. "As soon as the first big snow falls they curl up in their caves all snug and warm and never wake up until spring comes. Well, once upon a time a family of bears started for their cave to sleep all winter, but the weeny bear, who was full of mischief, did not want to spend several months lying in a dark hole.

"But you must," insisted his mamma. "You will never grow up to be a big chap like your father if you don't get lots of sleep."

"No, I want to play with the snowballs," said the weeny bear. "It's lots of fun sliding down hill too."

"Well, the mamma bear thought he would soon get sleepy and follow her, and she went to the cave with the others and was soon sound asleep. The little bear, however, felt very wide awake, and he trotted off through the woods and pretty soon met a fox.

"Hello, Mr. Bushytail!" he said. "I bet I could wrestle you!"

"You better be off to bed, youngster," replied the fox. "First thing you know you'll fall asleep standing up, and then Mr. Wolf will get you."

"Humph, who wants to sleep when you can roll around in the snow and have a jolly good time?" said the weeny bear. "Let's stand on our heads."

"The fox said he did not care for that kind of exercise, and the bear said to watch him do it, and he was soon in that position and looking so funny that the fox burst out laughing. When the bear had been standing on his head for a time he became sleepy, began to yawn, finally closed his eyes and was soon sound asleep. Then the fox laughed so loudly that the racket brought a squirrel, a chipmunk, a beaver and a rabbit out of their holes.

"What's the matter here?" they asked.

"Why, can't you see?" replied the fox. "This foolish bear has gone to sleep standing on his head. Did you ever see such a funny sight before? Ha, ha, ha! Ho, ho, ho!" The other animals began to hold their sides with laughter, when suddenly out jumped a big hungry wolf, and ran may be sure they all ran for their holes. When the wolf saw the little bear he licked his chops and smiled and said, "What a nice meal for me!"

"He walked up to the little fellow, but just as he was going to bite him the bear opened his eyes and then dropped right over on the wolf's back, surprising him so that he darted off through the woods with young brain sitting astride him like you would ride a horse. But when they came to the little bear's home off he jumped and darted into his cave and was sound asleep beside his mother before you could say Jack Robinson."

Married Women.
 No married woman's happiness is complete without children; she yearns with the deeper longings of her nature for the joys of motherhood. But women who bear children should prepare for the coming of baby by properly caring for their physical systems. Mother's Friend is a remedy which prepares the muscles and tendons for the unusual strain, renders the ligaments supple and elastic, aids in expanding the skin and flesh fibres, and strengthens all the membranes and tissues. It is especially valuable where the breasts are troubled with swelling and congestion, and danger when the little one comes. Women who use Mother's Friend are assured of passing the crisis with safety. It is for sale at drug stores. Write for free book for expectant mothers. 154dtf

 Workmen are today removing pipe from Elmwood avenue and Church street where it had been deposited temporarily to laying it. Since the presence of the Newark Water company these lines are not needed and the pipe is being hauled to the city lot.

Saw Fight Pictures.
 A letter received from H. D. Hale and Leonard Graham, who are on a week's lake trip, state that they saw the Jeffries-Johnson fight pictures. Mr. Hale stated that the pictures were the best he had ever seen, saying they were full of life and very clear and distinct.

Word, Franklin Sinking.
 Mrs. W. J. Franklin, who has been seriously ill at the home of her daughter, Mrs. H. H. Griggs, in Cleveland, for some time, is gradually growing weaker, and that her condition is considered very alarming by her friends.

Subscription Concert.
 Friends of Byron G. Mitchell, the well known boy soprano, of this city, are arranging for a subscription concert to be given at the Auditorium on Friday evening, September 21. It will be in the nature of a farewell concert to his departure for New York City. Talent from Granville, Newark, Colchester and Columbus will probably assist. Definite announcement will be made later.

Appraisers Nearly Done.
 The board of city appraisers held a final meeting Wednesday night and went over a number of properties which they revised. The work of the board is being rapidly closed up and it is getting ready to have printed cards mailed to property owners. The work of appraising property this year is very tedious and difficult on account of the errors that would naturally come into the work.

New Telephone Directory.
 The Newark Independent Telephone Company has just had published a directory of 132 pages, giving the names of Newark and Granville subscribers, together with the list of Croton, Alexandria, Jointstown, Jersey, Hebron, Pataskala, Homer, Ellicott and Hanover exchange subscribers. The directory announces that the local company gives free connections with 2500 telephones in twelve townships. The directories will soon be distributed among the subscribers. They are now going through the bindery.

DEAFNESS CANNOT BE CURED.
 By local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed, it causes the eardrum to become rigid and, in some cases, to become entirely closed. Deafness is the result, and unless the inflammation can be removed, deafness will be permanent. It is a disease of the mucous membrane, and it is a disease of the mucous membrane, and it is a disease of the mucous membrane. 154dtf

Word was received from the Bristol home north of the city, today, that Judge E. M. P. Brister's condition is somewhat improved. He passed a very comfortable night and is resting nicely today.

To Build a Cottage.
 T. V. Rutledge, the clothier, has just secured a splendid site for a cottage on the "Point" at Buckeye Lake. Mr. Rutledge will build a 2-room cottage there in the spring.

THE ARCTIC CROP.

Frigid Yield From Greenland's Icy Mountains.

THE MAKING OF AN ICEBERG.

Huge Sheets of Ice a Mile Thick in Places Slide Down to the Sea, and as the Ends Become Too Heavy They Break Off and Form Berge.

At any time of the year ice may be encountered in the Atlantic north of the fortieth parallel of latitude, approximately that of New York, and between 42 and 55 degrees west longitude, but it is in spring when the increasing warmth of the sun loosens the arctic floes and causes the bergs to melt and float from the places where they have been stranded, that there is the greatest danger to the mariner.

The bergs have their origin almost exclusively in western Greenland, although a few may come around Cape Farewell from the Spitzbergen sea and some from Hudson bay.

A huge sheet of ice a mile thick in places covers the whole of Greenland. This gradually slides down the valley toward the sea, into which it is thrust in great sheets fifty miles wide. As these ends become too heavy they break off and become bergs. The process is known as "calving." The pieces set adrift thus may be a thousand feet out of the water and a mile square, but as they drift about they become broken and continue to diminish in size until they finally disappear completely. The process sometimes takes several years.

Once set adrift icebergs find their way into the Labrador current and begin their journey. But of all bergs so set adrift only a very small proportion ever find their way into the path of the transatlantic steamships.

Nor do all bergs take the same course. Some go south; others lodge against the shore or against islands. Two years may separate the time that two bergs reach a low latitude, though they were "calved" at the same moment.

Field ice also offers an obstruction to the icebergs, though by their great size and bulk they often act as piers and aid materially in breaking up the ice fields which obstruct the arctic basin.

Ice fields are more affected by the wind than are icebergs. Bergs generally drift with the current, so that one sometimes is seen moving into the wind.

Advantage is taken of this by the sealing and fishing boats when caught in an ice field. They often moor to an iceberg and are towed miles through the ice, through which otherwise they could make no headway. This is accomplished by sinking an anchor into the berg and using a strong towline. As the berg advances open water, with small floating ice, is left astern.

But this is indeed a dangerous thing to do. All ice is brittle, but especially icebergs. A blow of an ax has been known to split one, while the report of a gun at times will accomplish the same end. In July and August, when the bergs are breaking up along the coast of Labrador, the noise at times is deafening, and the noise of one of these causes another to break up.

From their very nature icebergs assume an endless variety of shapes. Some resemble geometrical figures, while others carry fantastic domes, spires and minarets. Sometimes they appear to be veritable ice bridges, with two separate supports. In many there are great caves and indentations. As they drift south and begin melting cascades of water pour down their sides or run from the tips of the hundreds of icicles which depend from every ledge.

Frequently there are outlying spurs in the water, as dangerous to ships as submerged reefs. For this reason vessels should always give them a wide berth, half a mile being considered the nearest that one may be approached with safety.

Several years ago the British steamship Nessmore ran into an iceberg and stuck in her bows. When she was docked a scratch was found next the keel the full length of the ship, the plates being almost cut through. The ship evidently struck a submerged spur. The government report says:

"It is generally best for ships to go to windward of them, because disintegrated fragments have a tendency to drift to leeward, while open water will be found to windward."

So nicely are icebergs balanced in the water that the slightest melting sometimes will cause the center of gravity to shift, and the entire berg will capsize or founder. Thus many ships have been wrecked.

Field ice is formed throughout the waters within the arctic circle south as far as Newfoundland, and each year vast floes leave the shores and drift south into the paths of commerce. The arctic ice often has lived through several seasons in the far north and occasionally is ten to fifteen and sometimes twenty feet thick. Because of its continual motion, due to currents, wind, etc., gradually it becomes broken up. Swells from storms in the open seas cause it to raft or pile one upon another—in the arctic every piece of field ice is a pan—until it is covered with hummocks.

Ice also becomes rafted by the grinding of a free field against another frozen to the shore or by the grinding of two fields against each other when one is given a turning motion by contrary wind and tide. This rotary motion, it is said, is particularly dangerous to ships that get caught between fields—Chicago Inter Ocean.

ONES BROTHERS WILD WEST SHOW PLEASES CROWD

Jones Brothers Buffalo Ranch Wild West show paid its first visit to Newark today and which the show came a stranger it will depart with a host of friends. The clean cut attitude of all connected with the outfit is worthy of note and the freedom from immoral and catch penny devices is also a feature.

The show travels on its own train of sixty-foot cars and the paraphernalia is in excellent shape, considering the fact that this is the first end of a long season.

The parade was an attractive feature, there being a wealth of good music, a kaleidoscope array in color in the garb of the representatives of the various nations, and a riot of fun with the clowns. The steam calliope brought up the rear as usual.

The management of the show is invested in J. Augustus Jones, a veteran showman of 25 years experience, and today he reduced the price of admission to 25 cents for large and small alike. Two performances are given each day in the afternoon at 2:15 and in the evening at 8:15, the doors being open one hour prior to that time.

The program given is an excellent one and the Wild West features are good and the troupe of Japanese simply great. All in all it's a good show.

C. A. Berser is the press representative of the shows and during his stay in town made good in a manner reflecting credit upon himself and his attraction.

FREDONIA LODGE OF MASONS HOLD ANNUAL PICNIC

For a number of years past it has been the custom of Fredonia lodge of Masons to hold annually a picnic and outing at the beautiful Cat Run, a few miles north of Granville. The picnic this year was held Thursday and was largely attended, not only by the members of Fredonia lodge, but by a large number of their friends, including quite a number from Granville and Newark. There were also in attendance a number of candidates for office. A splendid program of exercises was carried out through the day, which was seasoned with a sumptuous dinner. Splendid music for the occasion was furnished by the Welsh Hills Band.

The Best Hour of Life
is when you do some great deed or discover some wonderful fact. This hour came to J. R. Pitt, of Rocky Mt., N. C., when he was suffering intensely, as he says, "from the worst cold I ever had, I then proved to my great satisfaction, what a wonderful Cold and Cough cure Dr. King's New Discovery is. For, after taking one bottle, I was entirely cured. You can't say anything too good for a medicine like that." It's the surest and best remedy for diseased lungs, Hemorrhages, whooping Cough, Asthma, Hay Fever, any Throat or Lung Trouble. 50c., \$1.00. Trial bottle free. Guaranteed by F. D. Hall, druggist.

ETNA.

Mrs. Daniel Schoonover is ill at her home here.

Mr. and Mrs. Snelling are entertaining friends from Rocky Fork.

The Ladies' Aid society of the M. E. church will give an ice cream social Friday evening, August 19th, on the public square.

Amos Stultz who has been quite ill, is better.

The carpenters are progressing rapidly toward the completion of Mrs. Lida Fryor's new residence.

Mr. and Mrs. Sam Winn left last week for their home in Pennsylvania.

Mr. and Mrs. Harley Helmick and children are visiting relatives in Van Wert county.

G. P. Clifton spent several days last week with relatives in Van Wert county.

The ball game last Saturday between the Pataskala and Etna teams resulted in favor of Etna 7 to 4. Stanley Miller pitched for Etna and struck out 15 players.

Owing to extremely warm weather Rev. Mr. Moore of the U. B. church, held the evening service on the public square last Sunday evening. There was a large crowd present.

Mrs. Stella Kain of Buckeye Lake, spent Sunday with her mother here.

Don't ask an old maid to take a chance in a lottery. She might construe it as a proposal of marriage.

INSTANT RELIEF FOR SORE FEET

Sore Feet, Tender Feet and Swollen Feet Cured Every Time. TIZ Makes Sore Feet Well, No Matter What Ails Them.

Policemen all over the world use TIZ. Policemen stand on their feet all day and know what sore, tender, swollen feet really mean. They use TIZ because TIZ cures their feet right up. It keeps feet in perfect condition. Read what this policeman has to say: "I was surprised and delighted with TIZ for tender feet. I hardly know how to thank you enough for it. It's superior to powders or plasters. I can keep my feet in perfect condition. Believe in my earnest gratitude for TIZ. I am a policeman and keep on my feet all day."—Emory Harrell, Austin, Texas.

You never tried anything like TIZ before for your feet. It is different from anything ever before sold. TIZ is not a powder. Powders and other foot remedies clog up the pores. TIZ draws out all poisonous exudations which bring on soreness of the feet, and is the only remedy that does. TIZ cleans out every pore and glorifies the feet—your feet.

You'll never limp again or draw up your face in pain and you'll forget about your corns, bunions and callouses. You'll feel like a new person.

TIZ is for sale at all druggists at 25c. per box, or it will be sent you direct if you wish from Walter Luther Dodge & Co., Dodge Building, Chicago, Ill.

Quite a large crowd was present at the Sunday school picnic held near here Saturday. The weather was ideal and a most enjoyable time was had by all.

MOTHER ILL; STOPS SHIP.

New York, Aug. 18.—The Cunarder Lusitania was swinging out into the Hudson river yesterday when an elderly woman in black, accompanied by a young woman, rushed to the pier and the former cried:

"I am answering a death message from my mother and I must go on that boat."

Her evident distress appealed to Captain Roberts, the pier superintendent, and he put the woman on board tug, which took them to the steamship, which stopped amidst-stream.

The elder woman was Mrs. John Plunkett of Cleveland, who had received a cablegram from Edinburgh that her mother was critically ill. She and her daughter remained with friends in Brooklyn last night, and, being unfamiliar with car lines, went out of their way and were late at the pier.

RESULTS THAT REMAIN

Are Appreciated by Newark People.

Thousands who suffer from backache and kidney complaint have tried one remedy after another, finding only temporary benefit. This is discouraging, but there is one special kidney medicine that cures permanently, and there is plenty of proof right here in Newark.

Here is the testimony of one who used Doan's Kidney Pills years ago, and now states that the cure was lasting.

Harley Speaks, 238 Boylston Ave., Newark, Ohio, says: "I was considerably annoyed by rheumatism and acute pains across my loins that made every movement one of distress. The kidney secretions also caused me much trouble, being too frequent in passage, and though I used various remedies, none gave me more than slight relief. Finally Doan's Kidney Pills were brought to my attention, and I procured a box at Crayton & Co.'s drug store. They brought me prompt relief. The pains in my back disappeared, my kidneys were strengthened and I improved in every way. I have had no return of the trouble and therefore am glad to endorse Doan's Kidney Pills."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States.

Remember the name — Doan's — and take no other.

GRANVILLE

Granville, Aug. 18.—There is considerable consolation in the fact that more people visit Granville in the summer season than leave it. The balance of trade is very much in our favor.

Mr. and Mrs. Thomas Carlin of Buffalo, N. Y., who have been visiting relatives in Newark for some time, spent Wednesday in Granville.

Sleep does destroy or injure enough sheep every year in this country to supply a small nation with meat. Granville township contributes its quota of the grand total.

A son of Mr. Edward Crooks, who has been dangerously ill at his home about two miles east of Granville, on the Granville and Newark road, is reported as being a little better at this writing.

Hickory timber is said to be gradually vanishing in Granville township. Where there was formerly hundreds of hickory trees it is difficult to find a single specimen in some parts of the woodland.

Miss Veta Harris is visiting Mr. and Mrs. O. B. Cheshire at their cottage at Summerland Beach on Buckeye Lake. She expects to be absent a week or ten days.

Mr. and Mrs. Edward Wright left Thursday morning for a trip to Atlantic City.

Mrs. William Snore, an estimable woman of this place is reported as being quite ill.

PROPOSE FINE MONUMENT FOR PUGILIST GANS

Baltimore, Md., Aug. 18.—A plan is on foot to bring a number of the leading pugilists in the country here to take part in a monster benefit, the proceeds to be used to erect an elaborate monument at the grave of Joe Gans, the negro pugilist. It is not proposed that any part of the money shall go to the family of the dead fighter as Gans is believed to have left them well provided for.

Efforts will be made to have Terry McGovern and Young Corbett box and it is believed other celebrities will volunteer their services.

KAUFMAN-LANG MATCHED AGAIN

Philadelphia, Aug. 18.—Al Kaufman of California, and Bill Lang, the Australian have been matched by Harry E. Edwards, the boxing promoter of this city, to meet in a six round bout at the Philadelphia ball park on the evening of September 5, Labor Day. These men were to have met in New York Tuesday night, but the police refused to allow the contest to go on.

A FAST BOUT.

New York, Aug. 18.—Sportmen today concede that last night's 10-round fight between Dick Hyland of San Francisco and Battling Hurley of Passaic, N. J., was the fastest mill witnessed in New York in years. The boys met at the Sharkey Athletic Club. The contest was a whirlwind affair from start to finish.

CAR STRIKE

(Continued from Page 1.)

company had nearly 600 such guards here.

The question arose yesterday as to just how far these imported guards could go in the capacity of special officers. Mayor Marshall said that they would not be permitted to shoot into crowds or exercise other drastic powers except when in actual defense of life or company property.

The mayor said he expected the company guards to conduct themselves as officers of the law and not be unnecessarily hasty in adopting severe measures.

Sixty members of the police department, including sergeants, were assigned by Mayor Marshall to plain clothes duty last night to catch stone throwers. The 60 men comprise half of the regular police department.

They were given certain districts to cover and worked in alleyways and behind billboards, and in secluded places for stone throwers since the beginning of the strike.

At a meeting of the state emergency board last night \$120,000 was voted to defray expenses incident to maintaining troops in Columbus during the strike. Of this amount about \$60,000 will go to make good a deficit incurred in the first call for troops. The appropriation then was for \$60,000. With \$60,000 to expend, figuring daily expenses at \$2,000, the present force of troops can be maintained for 30 days without additional appropriations.

Although the state board of charities asked for \$350 for clerk hire and \$900 was asked to pay for a special bank examiner, the appropriation for troops was the only one made.

It developed yesterday that Governor Hartranft had authorized the official void occupied by Chief of Police Chas. E. Carter during the strike, in a conference with Mayor Marshall and military officers last week.

In the process of informing himself as to Mayor Marshall's labors with the police department, the governor asked about Chief Carter and then suggested that it might help if a new chief were appointed.

"If any criticisms are made in the way the police department has been handled," said Mayor Marshall yesterday, "I'm the one to be criticised, and not Chief Carter. Blame cannot be attached to Carter, for I have virtually been acting chief of police and have been in personal charge of the situation."

"It is absurd for any one to ask for Carter's resignation. He will remain where he is. Safety Director McCune has taken his station at police headquarters at my side and he is second in command. Chief Carter and Captain Dyer have become staff officers."

Carter To Wear Uniform.

It also became known yesterday that Chief Carter would don a uniform and probably take a more active part in the work of the police in the field. His new studs were ordered three days ago and were supposed to be ready yesterday morning. Delivery was delayed until today.

The chief will wear spread eagles as insignia of his rank, which corresponds to that of colonel in the army. Carter has been opposed to wearing a uniform, but agreed with Mayor Marshall when the executive suggested that the uniform might prove an advantage.

Capt. Frederick H. Fanning of Co. C, corps of engineers, Cleveland, arrived in Columbus yesterday and throughout the day acted as the governor's bodyguard. He was dressed in citizen's clothes. Adjutant General Weybrecht's orderly also was without uniform.

General Manager E. K. Stewart of the company vigorously criticised the conduct of the police during the strike in a letter addressed to Mayor Marshall and Chief Carter yesterday.

The work of the police was termed "notoriously inefficient," and a demand was made that the police cease temporizing with crime. The letter said many of the police were good men, but could not be expected to do good service under poor leadership and without proper instruction.

Mayor Marshall replied to Manager Stewart's letter late last night. He said company officials and citizens had been asked to report dereliction of policemen, which would be followed by dismissal of the erring officer if sufficient proof were furnished.

The mayor said that despite the fact that the company had determined to operate night cars in the face of his request that they be suspended the entire police department was sent out to guard the car lines Tuesday night and they would continue to give the best protection possible.

Members of the Columbus Builders and Traders' Exchange, who Monday forwarded to Governor Harmon a resolution demanding the removal of Mayor Marshall, will not comply with the governor's demand made on them yesterday, that they make their charges more specific.

Contractor William Watson of the exchange said the subject would not be taken up again by the exchange. Governor Harmon informed the exchange that Vice Mayor Logan, in accordance with the law would become the city's executive should Mayor Marshall be removed.

Formation of vigilance committees along various car lines is progressing slowly. A number of business men, however, have offered their services to Sheriff Sartain. The sheriff now has a force of 150 deputies for riot duty.

Threatening to cause trouble through the British ambassador at Washington, George Galley of 1846 South Fifth street complained at the mayor's office yesterday that street car employees shot at his child on Tuesday night. He said he was a British subject and that even policemen were without authority to carry revolvers. He was angry and demanded to know who had taken it upon himself to give men working on the street cars permission to carry arms.

He said his child was between Inis and Reeb avenues and South High street Tuesday night when a car man shot from a car. He was a workman and wore a "we walk" button.

Secretary David A. Jones failed to convince him that men on the cars had a legal right to carry arms at this time.

Robert Mitchell, 128 Buttes avenue, a piano salesman, is the first victim of a strike assault to die. He was a passenger on a street car Sunday, when he was hit by a brick.

General Manager Stewart said last night that one union man had been given a letter during the evening directing the foreman of the Rose avenue barn to put him to work this morning and that several others were expected to report for duty today.

Three Cars Are Stoned.

Only three authenticated reports of stoning of cars were received at police headquarters last night. Stones and bottles were thrown at Twentieth street and Leonard avenue, Tenth avenue and High street and Twentieth street and Mt. Vernon avenue.

THE LADY AND THE LEOPARDS.

Women in many cases are among the most daring and skillful tamers and trainers of the fiercest wild beasts, such as lions, tigers and leopards. The most ferocious and at the same time most treacherous and dangerous of them all is said to be the leopard of Asia and Africa and its near relative, the jaguar of South America.

A little Frenchwoman who is one of the most famous wild animal trainers in the world says it is quite the wrong way to begin with whips and clubs on a wild beast you wish to educate, subduing it only through fear. The fear taming never lasts; the lion or tiger does not forget the cruelty. It takes longer to train a fierce beast by kind treatment and intelligence, yet it is the only true way, the French lady says. But even after the taming is done, so far as it can ever be accomplished, the trainer in the cage with the beasts at a performance must keep her eye on them every moment, watching like a hawk lest they spring at her unexpectedly.

The little Frenchwoman leopard trainer has seven of these big spotted cats, which she sometimes makes perform all at once. She enters their cage with a whip, using that to touch them up when they are slow or to guide them. She makes them stand upright and show themselves off; also has them

jump down from a high perch to illustrate how they spring upon their prey. Sometimes one of the savage creatures is bad tempered and does not want to obey, and it snarls wickedly at the trainer, who has much trouble to bring it into subjection. She has to do this every time one rebels, however, for if once she let it refuse it would never obey her again. This is true of all savage animals that are trained to perform. There is something strange about the fact.

BOY DROWNS IN RIVER.
New Philadelphia, Aug. 18. —Kenneth Gibbon, son of George Gibbon of Zanesville, who would have been 15 years old today, was drowned in the Tuscarawas river, west of here, yesterday while bathing. He is believed to have injured himself while diving. His two companions were unable to save his life. The body was recovered last night. The lad was here on a visit to his uncle, Wm. Lewis.

SUICIDE FOUND IN LAKE.
Cleveland, Aug. 18.—The body of a suicide, thought to be W. W. Thorne, 60 years old, of Detroit, was found in Lake Erie yesterday. The man was well dressed. A morning paper dated Aug. 16 was found in the coat pocket.
